- ✔ Consistent Introduction of New Insights

QUALITY CONTROL

Vidya Herbs quality assurance system follows rigorous standards & performs strict quality control at each step of production for the best quality of the final product.

Our quality control department is well equipped with analytical instruments like HPLC, GCMS-MS, UV-VIS Spectrophotometer, ICPMS, FTIR, Stability chambers etc.

At the processing, finishing & packaging is as per GMP Standards.

Authentication & Non-adulteration of the raw material

Characterization & Standardization of the finished products

Absence of Contaminants

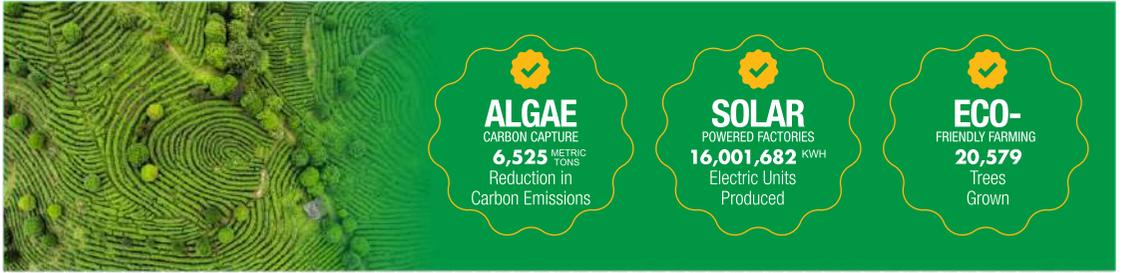

Stability tests on the finished product

CERTIFICATIONS

Our facilities & ingredients are backed by several 3rd party certifications:

OUR SUSTAINABILITY INITIATIVES

Vidya Herbs supports sustainable practices to ensure that the farmers we partner with can provide quality botanicals for generations to come. Some of our initiatives towards sustainability include:

BIODIVERSITY & ADAPTED LOCATION

Partner with select farmers that grow botanicals in the region (climate, soil etc.) they best thrive in to reduce the need for pesticides, herbicides and other interventions.

SOIL INTEGRITY

Train farmers on various techniques to protect the soil such as use of Crop Rotation, GACP (Good Agricultural and Collection Practice) to limit soil pollution by minimizing the use of chemicals.

ZERO CARBON FOOTPRINT

We aim to reduce the carbon emission by reducing use of Wood & rely more on Biofuels.

REGENERATIVE & BIODYNAMIC CERTIFICATION

Our commitment to nature, as well as our customers, drives our passion for seeking out the most sustainable farming practices.

OPTIMIZED WATER USE

Educate farmers on the use of catchment basins to collect rainwater for irrigation as well as using drip irrigation to limit later evaporation.

Our company also promotes the use of solar panels to power these drip irrigation systems.
